1. Introduction

- 1.2. The total issued share capital of A.S. Bryden & Sons Holdings Limited (“**ASBH**” or the “**Company**”) consists of 1,499,254,389 issued and outstanding ordinary shares, with no par value (collectively and individually referred to as the “**ASBH Shares**”).
- 1.3. The Offeror is the registered holder of 751,660,016 ASBH Shares (the “**Offeror’s Shares**”), representing approximately 50.14% of the issued and outstanding ASBH Shares.
- 1.4. At present, to the best of the Offeror’s knowledge, the ASBH Group (defined below) consists of the following main operating subsidiaries in Trinidad and Tobago, Barbados and Guyana:

*A.S. Bryden & Sons (Trinidad) Limited;
Bryden pi Limited;
F.T. Farfan Limited;

Holdings Limited (St. Lucia); Stansfeld Scott
Barbados Limited; and

(together with any other direct or indirect subsidiary of ASBH, collectively the “**ASBH Group**”).

- 1.5. The Offeror wishes to make an offer to all other holders of ASBH Shares (the “**ASBH Shareholders**” or the “**Offerees**”) to acquire up to Four Hundred Forty-Seven Million, Four Hundred Ninety-One Thousand and Twelve (447,491,012) ASBH Shares (the “**Offer Shares**”) (being 29.85% of the outstanding ASBH Shares) in order to achieve a total shareholding, together with the Offeror’s Shares, of a maximum of Seventy-Nine point Nine-Nine Percent (79.99%) of the ASBH Shares. The Offeror’s offer price is 396.43 newly issued ordinary shares in the Offeror per 1,000 ASBH Shares (the “**Offer Price**”).
- 1.6. This Offer is made for a maximum of the Offer Shares. - 1.7. If this Offer is successful, the Offeror intends to maintain ASBH as a listed company on the Jamaica Stock Exchange (the “**JSE**”) and intends to cause ASBH to make an application to the Trinidad and Tobago Stock Exchange Limited to list its Ordinary Shares on such Exchange.

The price per Offer Share is newly issued ordinary shares in the Offeror (the “**New Seprod Shares**”), which shall be issued at a rate of 396.43 New Seprod Shares per 1,000 ASBH Shares (disregarding fractions) (the “**Agreed Rate**”).
- 2.2. The Offer Shares are to be acquired free from all liens, charges, and encumbrances whatsoever, but including, without restrictions, all rights attaching thereto as of the Closing Date (as defined below), including the right to all dividends and other distributions thereafter declared, paid, or made thereon.
- 2.3. The Offeror does not propose to conduct open market purchases of ASBH Shares during the term of the Offer.

6.2. The collaboration between Seprod and ASBH is intended to allow principals and customers to benefit from a regionally integrated distribution platform.

6.3. Since being initially acquired by Seprod, ASBH has expanded its premium beverage distribution footprint to include Barbados, Jamaica, and St. Lucia. Seprod will continue to drive the penetration and expansion of its products in the English-speaking Caribbean.

7. Plans for ASBH

7.1.2. Seprod has no plans to sell, liquidate, exchange or otherwise alter any material amount of ASBH's assets or alter the general business of the company. Further, Seprod does not intend to delist ASBH's Shares from the Jamaica Stock Exchange, nor does it intend to seek to limit the rights of remaining shareholders.

7.1.3. Since Seprod acquired ASBH shares in 2022, the leadership of Seprod has taken an active role in the management of ASBH. Seprod intends to continue this active role subsequent to its purchase of additional ASBH shares to achieve greater integration and operational efficiency. 8. Valuation

8.1. In March 2025, EY (Jamaica) was engaged by the Offeror to determine the fair market value of ASBH in consideration of the Offer, using only publicly available information in accordance with the Offeror's instructions. The date of the valuation is as at December 31, 2024.

8.2. The following is an extract of the summary of EY's valuation:

Summary of Valuation Results

Overview of Valuation Premise and Approach

- ▶ Given that ASBH is a profitable entity, We concluded that it was appropriate to value ASBH on a going concern basis.
- ▶ ASBH comprises several subsidiaries engaged in the distribution of consumer products. Therefore, FMV of ASBH was determined using the sum-of-the-parts ("SOTP") approach. The SOTP valuation approach was used to separately assess the value of the principal business units (subject to the availability of information) and then add them to get the total value of the business.
- ▶ In the absence of information on each material subsidiary/business unit, using publicly available information, the SOTP approach considered the following :
 - ▶ ASBH (excluding CPJ) – As indicated, we did not receive financial statements for each of ASBH's subsidiaries. Furthermore, based on our understanding, except for CPJ, none of ASBH's other subsidiaries are listed on any stock exchange and therefore, no financial statements were publicly available for consideration in our valuation analysis. In the absence of non-public information to assess the enterprise value of each subsidiary separately, we have considered the enterprise value of ASBH on a whole excluding CPJ.
 - ▶ CPJ – As CPJ is a listed entity, financials are publicly available on the Jamaica Stock Exchange and as such, we have computed the enterprise for this entity separately.
- ▶ Of the three (3) main valuation approaches (income, market and asset), the income approach was considered the most appropriate to estimate the FMV of ASBH. This is because the value of ASBH is dependent on its ability to generate cash flows, rather than the value of the assets used in the operation of the business.
- ▶ In the absence of a budget, prospective financial information (PFI) and access to management, we have used the capitalized cash flow method to value ASBH.

See page [18](#) to [19](#)

Summary of Valuation Results

Equity Value using the Income Approach

Value per share

J\$30.76 to J\$34.00

- ▶ We have estimated the equity value of ASBH at TT\$2.08b (value per share of J\$32.38). However, usually, valuations are quoted as a range. Therefore, using the income approach, we conclude that the equity value of ASBH falls within a range of TT\$1.97b to TT\$2.18b (value per share ranging from J\$30.76 to J\$34.00).
- ▶ The range above is based on a +/-5% adjustment to the midpoint value of TT\$2.08b.
- ▶ We have estimated the equity value of ASBH at TT\$2.08b, which implies a value per share of J\$32.38. This represents a premium of ~8% over the share price (quoted on the JSE) as at 31 December 2024 of J\$30.01 per share.

See page [20](#) to [26](#)

Assessing the Reasonableness of the results of the Income Approach

Implied P/E and EV/EBITDA based on the income approach is 18.7x and 11.4x respectively.

- ▶ In assessing whether the value of ASBH under the income approach is reasonable, we considered the use of market multiples, namely P/E and EV/EBITDA
- ▶ In applying the market approach, we considered multiples of publicly-listed companies, namely distributors listed on the Jamaica Stock Exchange and Trinidad and Tobago Stock Exchange. The data used was obtained from S&P Capital IQ.
- ▶ For distributors listed on the JSE and TTSE, the median EV/EBITDA was 12.6x and 6.7x, respectively
- ▶ For distributors on the JSE and TTSE, the median P/E was 20.4x and 17.7x, respectively.
- ▶ The implied P/E and EV/EBITDA based on the income approach is 18.7x and 11.4x, respectively. This is slightly lower than the median P/E of 20.4x and EV/EBITDA of 12.6x respectively, on the JSE. However, our implied P/E and EV/EBITDA is higher than the median multiples observed on the TTSE. Based on these datapoints, the market multiples support our valuation conclusion under the Income Approach.

If a Dissenting Offeree does not notify the Offeror that it wishes to demand payment of a fair value for such ASBH Shares within twenty (20) days after he receives the Offeror's notice to acquire ASBH Shares held by Dissenting Offerees, such Dissenting Offeree is presumed to have elected to transfer his ASBH Shares on the same terms as the Offeror acquired the Offer Shares from the ASBH Shareholders who accepted the Offer.

13.4. By-Laws

13.4.1. Under By-Law 26, where ninety per cent (90%) or more of the ASBH Shares are acquired by the Offeror, then the remaining ASBH Shareholders shall be entitled, in accordance with By-Law 26, to require the Offeror to acquire their ASBH Shares.

Our strategic initiatives are designed to improve efficiency, increase market penetration, diversify products, and unlock long-term value across our operations. These initiatives include, but are not limited to:

Enhancing our distribution network

This initiative is expected to deliver significant operational efficiencies, reduce overhead costs, and improve service levels across the region.

Deepening relationships with principals

Seprod continues to leverage its robust regional distribution platform to strengthen ties with existing principals and attract new partnerships. Our ability to deliver reliable, wide-reaching distribution capabilities positions us as a preferred partner for both regional and international brands seeking access to Caribbean markets.

Management Discussion & Analysis

Q4 performance (October-December 2024)

For the three (3) months ended 31 December 2024 (Q4), the Group achieved revenues of J\$39.65 billion, an increase of

J\$8.81 billion (29%) over the corresponding period in 2023.

Gross profit closed at J\$10.71 billion, an increase of J\$2.93 billion (38%) above the corresponding period in 2023.

The net profit was J\$1.17 billion, a decrease of J\$321 million (22%) versus the corresponding period in 2023. In Q4 2023, there were non-recurring gains circa \$501 million arising from the restructuring of A.S. Bryden's post-employment medical plan and from one-off tax credit.

Q4 year-to-date performance (January-December 2024)

For the twelve (12) months ended 31 December 2024 (Q4 year-to-date), the Group achieved revenues of J\$133.08 billion, an increase of J\$20.93 billion (19%) over the corresponding period in 2023.

Gross profit closed at J\$35.44 billion, an increase of J\$4.07 billion (13%) above the corresponding period in 2023.

The net profit was J\$4.14 billion, a decrease of J\$424 million or 9% versus the corresponding period in 2023. The decrease was due to the aforementioned non-recurring gains in 2023.

While the year over year comparison is made more complicated due to material one-off transactions in 2023, as well as by the acquisitions by A.S. Bryden & Sons Holdings Limited (ASBH) in 2024 (primarily the acquisition of Caribbean Producers (Jamaica) Limited (CPJ)), Seprod significantly advanced its strategic ambition of creating a strong regional foundation that has reinforced our position as a partner of choice for key principals. This regional network is also allowing us to produce more of the regional

demand for dairy-based products, juices, oils, margarines, milled products (wheat and corn); thereby utilizing the significant investments made in the manufacturing facilities over the recent years.

Report of the Directors

After due inquiry, the Board hereby confirms, in relation to the period between Seprod's most recently completed financial year and the date of the date of this Circular that in their opinion:

- Seprod's business has been satisfactorily maintained;
- there have not arisen any circumstances which have adversely affected the trading or the value of Seprod's assets;
- Seprod's current assets appear in the books at values which are believed to be realisable in the ordinary course of business;
- there are no new contingent liabilities by reason of any guarantees or indemnities given by Seprod; and
- there have been no changes in the published reserves or any unusual factors affecting Seprod's financial position.

Risk Factors relating to an investment in Seprod's Shares

The following does not purport to be a comprehensive summary of all of the risks associated with an investment in Seprod's ordinary shares (the '**Shares**'). Rather, the following are only certain risks to which Seprod (also referred to hereunder the '**Company**') is subject and prospective investors should discuss and evaluate in detail with their professional advisors. Other risks and uncertainties that the Company does not presently consider to be material, or of which the Company is not presently aware, may become important factors that affect Seprod's future financial condition and results of operations. The occurrence of any of the risks discussed below could materially and adversely affect the business, financial condition, financial performance or cash flows of the Company. Prospective investors in Shares should carefully consider these risks before investing in Shares and seek advice from a stockbroker or other appropriate professional.

Investors should appreciate that there are inherent risks in all types of investments. Prices of investments can move erratically and be unpredictably affected by many diverse factors, including political and economic events but also rumours and sentiment.

Market Risk

Seprod takes on exposure to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks mainly arise from changes in foreign currency exchange rates and interest rates. Market risk is monitored by Seprod treasury department which monitors the price movement of financial assets on the local and international markets.

There has been no recent change to Seprod's exposure to market risks or the manner in which it manages and measures the risk.

Currency Risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. It is also the risk that Seprod will be able to source sufficient amounts of various currencies to fund its operations.

Seprod is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Jamaica dollar, the Trinidad and Tobago dollar, the Barbados Dollar, the Guyanese Dollar, the United States Dollar and others. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities and net investments in foreign operations.

Seprod manages its foreign exchange risk by monitoring currency positions. Seprod further manages this risk by maximizing foreign currency earnings and holding foreign currency balances.

Seprod has certain investments in foreign operations, the net assets of which are exposed to foreign currency translation risk. Seprod also has trade and financial liabilities denominated in hard currency. Currency exposure arising from the net assets of Seprod's foreign operations and its hard currency liabilities exposes Seprod (and companies within Seprod) to foreign exchange risk.

Operating across multiple jurisdictions may expose Seprod to currency volatility and restrictions on repatriating profits, particularly from countries with tight foreign exchange controls.

Liquidity Risk

Apart from inventories, trade receivables and amounts due from related parties are amongst the highest contributors to the nominal value of Seprod's current assets. Thus, should payments from major customers

be unexpectedly delayed, this could ultimately impact Seprod's cash flows and its ability to meet financial obligations. Notwithstanding this, Seprod has enforced strategies to mitigate this risk which includes, but is not limited to, placing restrictions on the amounts extended to each customer while monitoring these exposures on an ongoing basis.

Business Risk

Seprod's business relies heavily on consumer preferences and tastes, which may often shift to other alternatives in unpredictable ways. Consequently, the failure to satisfy the evolving needs of the consumer could negatively impact Seprod's profitability.

Climate Risk

Natural disasters, changing weather patterns and unfavorable weather affecting the Caribbean, such as hurricanes and earthquakes, may severely impact economic activity in Jamaica and by extension, the future profitability of Seprod. The properties from which Seprod carries on business are susceptible to loss or damage by fire, hurricane, earthquake, flood and other perils.

Supplier Risk

Seprod's successful operation is contingent upon its ability to maintain its distribution relationships with key suppliers and to secure the products distributed through supplier arrangements. Should these relationships become terminated or impaired, Seprod's profits would suffer in the short to medium-term while it takes steps to identify other suppliers.

Operational Risk

Seprod is also subject to the risk of loss resulting from disruptions to its business, inadequate or failed internal processes, people and systems or from external events (including severe weather, other acts of God or social unrest). These also include systematic risk (including risk of accounting errors, failure to procure adequate insurance coverage, and compliance failures), legal risk and reputational risks. The Directors consider that Seprod is prudent and that it insures itself against some (but not all) of these risks. It may not be feasible for Seprod to insure itself in respect of all of the risks mentioned, because no coverage may be available, or it may not be economical to do so.

Limited Control

It is expected that Seprod's existing controlling shareholders will retain their respective shareholdings in Seprod and will therefore maintain effective control of Seprod's Board of Directors. Minority shareholders will have limited control over changes in Seprod's policies and operations.

Seprod's Board will determine major policies, including policies regarding financing, growth, debt capitalization and the distribution of dividends. The Board may amend or revise these and other policies without a vote of the shareholders. The Board's discretion in setting policies and individual shareholders' inability to exert control over those policies may increase the uncertainty and risks of an investment in Seprod.

Litigation Risks

In the course of Seprod's operations, any member of Seprod's group of companies (the 'Group') may become involved in, named as a party to or the subject of, various legal proceedings, including regulatory proceedings, tax proceedings and legal actions. The outcome with respect to these potential future proceedings would be difficult to predict and may be determined in a manner adverse to the Group (or any

member(s) of the Group) and, as a result, could have a material adverse effect on the assets, liabilities, business, financial condition and financial performance of the Group (or member(s) of the Group). Even if the Group (or member of the Group) prevails in any such legal proceeding, the proceedings could be costly which could have a material adverse effect on the cash flows, financial condition or financial performance of the Group (or any member(s) of the Group) and its/their ability to make distributions to shareholders.

Potential Volatility of Share Prices

The market price for the Shares may be volatile and subject to wide fluctuations in response to numerous factors, many of which are beyond the Company's control, including the following: (i) actual or anticipated fluctuations in the Company's quarterly results of operations; (ii) recommendations by securities research analysts; (iii) changes in the economic performance or market valuations of other issuers that investors deem comparable to the Company; (iv) addition or departure of the Group's executive officers, directors and other key personnel; (v) release or expiration of lock-up or other transfer restrictions on outstanding shares or securities convertible into shares; (vi) sales or perceived sales of additional shares or securities convertible into shares; (vii) significant acquisitions or business combinations, strategic partnerships, joint ventures or capital commitments by or involving the Company or its competitors; and (viii) news reports relating to trends, concerns, technological or competitive developments, regulatory changes and other related issues in the Group's industry or target markets.

Reliance on Key Personnel

The management and governance of the Company depends on the services of certain key personnel, including certain executive officers and the directors.

The management and governance of the Company depends upon the performance of certain key personnel including executive officers, directors and managers, among others.

The loss of the services of certain key personnel could have an adverse effect on the Company's business operations. If the Company is unable to retain and attract certain key personnel, it may not be able to implement its strategies and, accordingly, its business may be negatively impacted.

The Company can mitigate this risk by investing in our employees, maintaining our reputation as an employer of choice, continuously recruiting talented personnel, and ensuring robust succession planning.
